

Why DSOs Love Apteryx Cloud Imaging

Learn why over **10,000 practices** are choosing **Apteryx Cloud Imaging** as their imaging solution. With 20+ years of industry experience, Apteryx's hybrid imaging model gives the best of both worlds, **enhancing your efficiency and patient experience.**

Save Time and Money

Reduce IT and server expenses by limiting the amount of physical in-house hardware needed while also maintaining the level of support with automatic updates and upgrades for one consolidated monthly fee.

Access Anytime, Anywhere

Real-time image sharing allows you to pull up patient images regardless of which office the patient visits.

Device Agnostic

Optimize your workflow system during acquisitions with the freedom to work with any hardware or software.

Ease of Use

Provide a seamless experience for patients and staff by reducing time spent toggling between multiple screens.

Microsoft Azure Backed Security

Backed by Microsoft Azure with the latest software updates to prevent viruses, malware, and ransomware.

Trusted by multiple DSOs such as:

American Dental Partners
North American Dental Group
Children's Choice Pediatric Dental Care

Learn how Apteryx Cloud Imaging can help your dental organization improve imaging workflows.
